

Vasindux PRO

Version 2.0

The **Vasindux Pro** is one of the most up-to-date pulsed electromagnetic devices currently available for professional or home use.

PEMF therapy is based on the principle that the Earth's magnetic field is best for creating a healing environment within the body through natural processes.

This lightweight and compact controller offers a wide range of programs for optimal results. The Vasindux Pro offers easy-to-use I, II and III shortcuts to start the **Energy**, **Relax** and **Sleep** programs instantly.
